Orient Display TFT & CTP used in First Lady's Cell Phone

Peng Liyuan, wife of Xi Jinping, Chairman of the People's Republic of China, takes pictures next to Volkswagen CEO, Martin Winterkorn in Berlin, Germany. The phone she is using is Nubia model Z5 made by Chinese firm ZTE, the world's seventh-biggest smartphone maker. ZTE uses a TFT display with a Projected Capacitance Touch Panel from Orient Display in this phone. This combination features the latest technology from Orient Display including OGS and Optical Bonding. Peng Liyuan is among China's most famous folksong singers. Her successful singing career made her a household name in the 1980s, before her husband emerged as a rising political star.

TFT Specifications

The product is equipped with a 4.7" Display Panel with 1280x720 resolution and an OGS (One Glass Solution) Capacitive Touch Panel manufactured by Orient Display
